Will shred all known paper/plastic playing cards.  
Bent cards are not a problem!  
The machine is automatically stopped  
by a sensor when all cards are shredded.

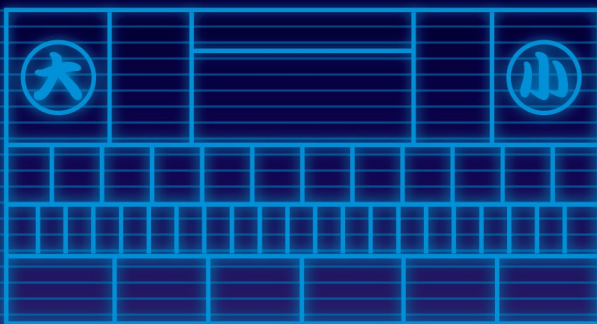

Designed for back room use, the powerful MA-5 can shred over 20 decks per minute and the MA-6 can easily shred over 30 decks per minute ensuring all used cards are thoroughly disposed of while saving valuable hours in the process.

The new automatic sensor sets the motor into standby mode when all cards in the tower have been shredded which ensures safety and durability.
